

Question	Time stamp for answer
<p>I have a question about the overall materiality and now that this is showing up on the CaseWare leadsheets. Sometimes the materiality shows up and sometimes it does not, what can I change to make this consistent to show on all files?</p>	<p>27:28</p>
<p>Any update on importing from Windward System 5 (Ver 6.0)?</p>	<p>28:57</p>
<p>Does Jazzit work in CaseWare Cloud? Can you tell us a bit about CaseWare Cloud, and can we use that with our Jazzit templates?</p>	<p>29:50</p>
<p>Will Jazzit become part of the CaseWare ReviewCompTax web-based product?</p>	<p>30:58 Jazzit will remain CaseView based which is within CaseWare Working papers software. CaseWare working papers integrates with CaseWare cloud so you will be able to use all the integrated Cloud web services in CaseWare 2019</p>
<p>We would ask that you incorporate more accounts on the balance sheet. We have files that we need to round to GST, taxes or shareholders loan. We have frustration with the rounding, and quite often have to over-ride cells. Also, in the last update the paragraph headings no longer stay with the paragraph and may end up on the previous page. Was this fixed, and if not, can we get it fixed please.</p>	<p>31:59</p>
<p>When will the next build be released?</p>	<p>33:21</p>
<p>On the Summary of identified misstatement worksheet, the trivial misstatement value doesn't show up. It is linked to materiality worksheet, but an error message comes up. How do we correct this?</p>	<p>33:52</p>
